We strongly recognise that our Board has some way to go to better represent the diversity of modern Britain. We recognise that if you are from a background that is currently underrepresented within the cultural sector you may need support to discuss how your experience is transferable to this role and there may be changes we need to make as an organisation to ensure you can fully contribute. We welcome these discussions and encourage you to get in touch for an informal chat to explore these questions.

Background

Established in 2018 to spearhead cultural regeneration for the coastal town of Lowestoft, First Light Festival C.I.C. is currently led by four skilled directors: cultural entrepreneur and national, urban and coastal regeneration design leader Wayne Hemingway MBE, dynamic, regional cultural leader Genevieve Christie, natural environment and science authority Clare Matterson CBE, and marketing specialist and Suffolk Business Ambassador Mary Graham.

First Light Festival is an ambitious, innovative, place-making arts festival taking place on Lowestoft's South Beach over 24 hours of midsummer weekend, with sunrise as a central part of the programme. The transformative impact of the 2019 festival, with more than 30,000 attendees, was felt across community cohesion, arts sector development, cultural tourism and local government, and continues to resonate, positioning First Light as a central tenet of Lowestoft's cultural regeneration vision and planning for the town.

First Light also works year-round to engage with hard-to-reach audiences through large scale community projects and arts and music workshops in schools. From spring 2022 we will be resident at the newly renovated East Point Pavilion, delivering a programme of engagement and cultural activities for and with our community.
